## Sample Space Tree Diagrams

## Section A Dice Probability

1) Two fair dice are thrown and the scores are ADDED together.

- Complete the sample space diagram
- How many outcomes are there?
- What is the probability of getting a score of ' 5 '?
- What is the probability of getting a score greater than '9'?
- What is the probability of getting a score less than '7'?

2) Two fair dice are thrown and the scores are MULTIPLIED together.

- Complete the sample space diagram
- How many outcomes are there?
- What is the probability of getting a score of ' 6 '?
- What is the probability of getting a score greater than '16'?
- What is the probability of getting a score less than '4'?

|  | $\bullet$ | $\bullet$ | $\bullet$ | $\because$ | $\because \square$ | ! : |

| $\because \cdot$ |  |  |  |  |  |  |
| $\because \cdot$ |  |  |  |  |  |  |
| : : |  |  |  |  |  |  |

3) A six-faced dice and a four-faced dice are thrown. The first score is SUBTRACTED FROM the second score.

- Complete the sample space diagram
- How many outcomes are there?
- What is the probability of getting a negative score?
- What is the probability of getting a score $\geq 0$ ?

First Score

## Sample Space Tree Diagrams

## Section B

1) Jamie has two fair spinners.

One has three equal sections colored red, blue and yellow. The other has four equal sections numbered 1, 2, 3 and 4. Jamie spins both spinners.

Complete the sample space diagram.

| Color | B |  |
| :---: | :---: | :--- |
| Number | 1 |  |

2) A fair dice and a coin are thrown together.
a. Draw a sample space diagram to represent the possible outcomes.
b. What is the probability of getting an even number and a tails?
3) A game is played using the counters inside two bags.

Bag 1 contains a green, purple and an orange counter.
Bag 2 contains 3 counters with the numbers 4,5 and 6 on them.
a. Draw a sample space diagram to show all the possible outcomes when one counter is taken from each bag.
b. What is probability of someone picking a green counter and the number 4 ?
c. Find the probability of taking an orange counter and a number greater than 4.
