Section A: Write down the coordinate of the symbols placed on the $1^{\text {st }}$ quadrant grid. The first one is done for you.

| Example: | $(10,2)$ |
| :---: | :---: |
| 0 | $(0,8)$ |
| 0,3 | $(2,2)$ |
| A10 | $(15,8)$ |

| 0 | $(3,10)$ |
| :--- | :--- |
| 8 | $(12,12)$ |
|  | $(5,5)$ |
|  | $(14,0)$ |

| $\mathcal{O}$ | $(18,2)$ |
| :---: | :---: |
| ■~ | $(10,10)$ |
| 人 | $(8,7)$ |
| 人 | $(14,5)$ |

Section B: Use the letters place in the $1^{\text {st }}$ quadrant grid to answer the questions below.

1) What word do these coordinates spell out?
$(4,3)$
$(11,5)$
$(5,10)$
$(9,1)$
$(14,8)$
$B \quad R \quad E \quad A \quad D$
2) Write the coordinates that spell out MATHS.

M (10, 10)
A (9, 1)
T (1, 5)
H (6, 7 )
S (16, 3)
