Order the fractions, decimals and percentages smallest to largest.

| $\frac{1}{2}$ | 0.75 | 70% | $\frac{2}{5}$ |

Method 1:   **First convert all the numbers into decimals**

| 0.5 | 0.75 | 0.7 | 0.4 |

The order would be $\frac{2}{5}$, $\frac{1}{2}$, **70%, 0.75**

Method 2:   **First convert all the numbers into percentages**

| 50% | 75% | 70% | 40% |

The order would be $\frac{2}{5}$, $\frac{1}{2}$, **70%, 0.75**
