

Make your own questions and find the right answer.

Your final answers should not be decimals

$$\square \times 0.5 = \square$$

$$\square \times 0.5 = \square$$

$$\square \times 0.5 = \square$$

$$\square \times 0.5 = \square$$

$$\square \times 0.5 = \square$$

$$\square \times 2.5 = \square$$

$$\square \times 0.5 = \square$$

$$\square \times 2.5 = \square$$

Make your own questions and find the right answer.

Your final answers should be decimals

$$\square \times 0.5 = \square$$

$$\square \times 1.5 = \square$$

$$\square \times 0.5 = \square$$

$$\square \times 1.5 = \square$$

$$\square \times 0.5 = \square$$

$$\square \times 2.5 = \square$$

$$\square \times 0.5 = \square$$

$$\square \times 2.5 = \square$$
